He just sent another email indicating the info he's looking for isn't on our website. Since he's with the Durango Herald, someone needs to get back to him ASAP.

Thanks,

I've directed him to our websites but perhaps you can answer his specific question related to sediment sampling.

**Subject:** Sediment tests

Hello,

Are the sediment tests coming separately from the data released yesterday for the Animas River?  
When might we expect that sediment data?

Thx
